Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 25, 2005 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-8, 10-15, 17-20, 22, 23 and 25-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not provide support for the following: a spanning, single elevation, pre-located, topside deck; maintaining the topside deck at a single elevation; the spanning elevated floor being of substantially a single elevation **parallel** to the spanning topside deck; and the hatch opening and topside deck remaining substantially at a single elevation.

This is a new matter rejection.

Response to Arguments

4. Applicant's arguments filed November 25, 2005 have been fully considered but they are not persuasive because the subject matter added to the claims and which applicant bases his arguments for allowability upon have no support in the specification as originally filed.

5. The specification as originally filed has been "word searched" for "parallel", "elevation" and "single elevation". Only a hit for "elevation" was found; however, in this instance, "elevation" referenced a particular view of the drawings.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stransky is cited to show the flush hatch cover construction. Japan 61-81290 is cited to show the hatches 3 flush with the deck.
